each 24" x 24" finished block will require:

center nine patch:
(1) one center square $-6-1 / 2^{\prime \prime} \times 6-1 / 2^{\prime \prime}$
(4) four point squares $-6-1 / 2^{\prime \prime} \times 6-1 / 2^{\prime \prime}$
(4) four corner squares - 6-1/2" x 6-1/2"
(16) squares for snowballing or dog ear corners

$$
-3-1 / 2^{\prime \prime} \times 3-1 / 2^{\prime \prime}
$$

and for the outer half square triangles:
(4) four corner squares $3-1 / 2^{\prime \prime} \times 3-1 / 2^{\prime \prime}$
(12) twelve light squares $-4^{\prime \prime} \times 4^{\prime \prime}$
(12) twelve dark squares - 4" $\times 4$ "
(for a total of 24 - not 26 - half square triangles) trim half square triangle blocks to $3-1 / 2^{\prime \prime} \times 3-1 / 2^{\prime \prime}$
